Positive meeting with Destination NSW

Representatives from Central NSW Councils, the Board of Central NSW Tourism and the Forum of Regional Tourism Organisations met with Destination NSW this morning.

“The meeting was very productive. Lyndel Gray Executive Officer and General Manager of Destination NSW provided advice that she looks forward to the reconciliation of funds from the proposed merger between Central NSW, NewEngland North West and Outback which should be provided shortly.” said Cr Phyllis Miller, Chair of Centroc and Mayor of Forbes.

“Everyone agreed that Central NSW is a strong, stand alone and mature tourism region and should be funded accordingly,” said Cr Phyllis Miller.

“Ms Grey supports this region accessing its equitable share of the funding agreed to be allocated the Inland amalgamation. This will enable Central NSW to get on with some very exciting marketing. In combination with the product development work that has the 100% support from the tourism managers in the region, we are going to see some great outcomes for this region in the near future,” said Cr Phyllis Miller.

“Central NSW Tourism committed to providing the requisite documentation to Destination NSW to enable the funds to flow,” said Cr Phyllis Miller.

“I know the Mayors of the region will be very pleased to hear this as it has been a burning issue for us,” said Cr Phyllis Miller.
